

Vodafone Hungary
is looking for an
Application Support intern
in the field of **Technology Operations!**

Are you interested in the telecommunications industry and curious about the feeling of working at one of the world's leading mobile communication company?

If your answer is YES, **join us as a Technology Intern** and start building your career!

You will have the chance to gain valuable professional experience during your studies in an innovative multinational environment.

As an application support intern, your activities will include end user support, application maintenance, vendor management, administration of activities, furthermore participation in developments handover on the operations part, communicating with other departments and documenting the result of processes.

You will be involved in

- Logging incidents and their status with all related information
- Cooperating with other second line operation groups to solve the incidents
- Providing consultation and information to end-users
- Escalating incidents and tracking resolution
- Making sure that development/handover/change management processes are kept
- Making sure that application support requirements are understood and tested

You are the person we are looking for if you

- have an active full-time student status (ideally graduate student)
- have good written and oral communication skills both in Hungarian and English
- have good interpersonal skills, possibly experience in a multicultural environment
- have strong technical and analytical skills
- are willing to support internal end-users

As a Technology Intern you will work **part-time (20 hours/week)** for **6 months** so you can stay focused on your studies while **gaining real hands-on experience**.

During the program, we guarantee **exciting tasks and projects** full of challenges and also a **competitive salary**.

We will also assign a **buddy** to you, who will help you get to know the company and will answer all your questions.

After the internship, you will have the opportunity to apply for our **IT/Engineering Discover Program**, which is a 24-month long career program dedicated to IT and Engineering fresh graduates, which is based on rotations among the different areas of our Technology Department.

Location: **Budapest, Vodafone Hungary HQ**

If we have caught your attention and you would like to apply, then upload your English CV to our career site on the link below.
