

Vodafone Hungary
is looking for an
Project Coordinator
in the field of **Site Deployment Management!**

Are you interested in the telecommunications industry and curious about the feeling of working at one of the world's leading mobile communication company?
If your answer is YES, **join us as a Technology Intern** and start building your career!

You will have the chance to gain valuable professional experience during your studies in an innovative multinational environment.

The team's main activity is to **organize and manage the new site construction work**, besides the **extension** and **reconstruction** work in the Vodafone network.

You will be involved in:

- Assist in leading, controlling, organizing and reporting of implementation projects
- Gather project information and data from subcontractors and Vodafone departments for databases and project reports
- Gather the budgets from subcontractors and coordinate the budget acceptance process
- Trouble Tickets handling

You are the person we are looking for if you:

- have an active full-time student status (ideally graduate student)
- are a student from technology college or university
- have good knowledge of MS Office
- are precise and well-organized
- have some management skills
- are open and helpful personality
- good communication skills
- have good problem solving skills

As a Technology Intern you will work **part-time (20 hours/week)** for **6 months** so you can stay focused on your studies while **gaining real hands-on experience**.

During the program, we guarantee **exciting tasks and projects** full of challenges and also a **competitive salary**.

We will also assign a **buddy** to you, who will help you get to know the company and will answer all your questions.

After the internship, you will have the opportunity to apply for our **IT/Engineering Discover Program**, which is a 24-month long career program dedicated to IT and Engineering fresh graduates, which is based on rotations among the different areas of our Technology Department.

Location: **Budapest, Vodafone *Technology and Innovation Center* , Dévai Center**

If we have caught your attention and you would like to apply, then upload your English CV to our career site on the link below.
